

CAT DOCTOR EXPRESS

Our Goals:

- Continue to provide veterinary care for our clients and patients.
- Do our part to promote social distancing in order to “catten the curve” and help prevent the spread of the novel coronavirus.

Our Action Plan:

Implement curbside pickup and delivery for appointments (all cats must be in a secure carrier). Call us when you arrive and we will...

- Bring your cat into the clinic
- Virtually connect with you during the visit through Zoom Cloud Meetings
- Allow you to pay for services using credit card by phone
- Return your kitty to your car

Deliver food, flea control, and medication refills to your car.

Offer pet taxi service for those of you at higher risk or otherwise unable to get out.

Have you premedicate your cat with gabapentin if you are concerned about how your kitty will feel without you in the exam room.

Offer telemedicine opportunities to current patients as appropriate - have you send pictures and/or videos of your kitty. We may be able to treat some cases this way.
